VE Builders FAQ

What type of properties do we usually renovate?

Most properties we work on are single-family homes that list between \$265k to over \$400k. We are also able to support renovations to condos and commercial properties.

How many properties have we done?

In the last 13 years we have renovated over 1,500 houses and condos for flip and rental.

Can we work with your vendors?

If you have a specific vendor you'd like to use on a project, let us know as early as possible so we can involve them in the planning process and confirm their licensing and insurance. In order to provide you the most accurate pricing and timeline, we are only able to accommodate vendors who are working under the supervisor of VE Builders.

How do you manage your budget?

You'll be provided with a spreadsheet of expected pricing at the beginning of the project that allows you to compare bids and manage your actual costs. We can work with you on timing and talk through areas of the budget where you can save money.

Is a deposit required?

We request a 15% deposit to commence.

Do we have a staff?

We have five full-time staff members who are covered by workers comp and are licensed and insured under VE Builders.

Who will you communicate with day-to-day?

Eliot manages the sites and crews and can be reached via phone or email to address any questions you have.
